Enthusiastic and self-motivated full stack developer eager to contribute my skill in frontend development, and visual design to every project that will be received in the future. Renowned for the adept crafting of resilient web applications from conception to deployment, showcasing an impeccable track record of delivering excellence within designated timelines.

Skills

- **Programming Languages** - C, Python
- **Web Technology** - HTML, CSS, Javascript
- **Technologies** - React JS, Node JS, Express JS, Redux, Tailwind CSS, SCSS, Laravel
- **Databases** - MongoDB

Projects

College Event Website   *Website Link*

- A dynamic and responsive web application developed using the React.js, Express.js, Node.js and Tailwind CSS. The website serves as a platform for showcasing and managing a two-day college event, allowing attendees to seamlessly register for various events.
- **Tech stack** - React JS, Node JS, Express JS, Tailwind CSS

Smart Tourism   *Github Link*

- Web application that enables users to search for tourist places, view nearby places & restaurants with distance and location based on their current location. And also provides tour packages.
- **Tech stack** - React JS, Node JS, Express JS, MongoDB, SCSS

Auction Website

- An online auction platform with real-time bidding using React, Node.js, and MongoDB, enhancing user experience and facilitating successful transactions.
- **Tech stack** - HTML, CSS, JS, Laravel
